### Reading a schedule: a step-by-step guide

1. Find the schedule for the day of the week, route number, and the direction you plan to travel.
2. Look at the map and find the stops nearest your trip start and endpoints. Your stop may be between two trip points.
3. Read down the column to see what time a bus will depart from a given trip point. Read across a row to see when the bus will reach another stop. If a time is blank, that trip does not serve that trip point.

### Not all stops are shown on this timetable.

Use the trip times on the map and the schedule to estimate the arrival of your bus. For details, call Transit Information or explore our interactive map and trip planning tools at metrotrink.org.
