**Reading a schedule: a step-by-step guide**

1. Find the schedule for the day of the week and the direction you plan to travel.
2. Look at the map and find the trip times needed for your trip start and end points. Your stop may be between trip times.
3. Read down the column to see what time a bus will depart from your stop. Read across a row to see when the bus will reach another trip point. If the time is blank, that trip does not serve that trip point.

**Not all stops are shown on this timetable.**

Use the timetable on the map and the schedule to estimate the arrival of your bus. For details, call Transit Information or explore the interactive map and trip planning tools at metrottrans.org.
