**Reading a schedule: a step-by-step guide**
1. Find the schedule for the trip, not the day and the direction you plan to travel.
2. Look at the map and find the stops nearest your trip start and end points. Your steps may be between these points.
3. Read down the column to see what time a bus will depart from a given stop. Read across the row to see when the bus will reach a given stop. If the time is the same, the bus does not stop at that time point.

**Not all stops are shown on this Timetable**
Use the timetables on the map and the schedule to estimate the arrival of your bus. For details, call Metro Transit Information Center at 612-373-3333 or visit metrorail.org.
