Reading a schedule: a step-by-step guide

1. Find the schedule for the day of the week and the direction you plan to travel.
2. Look up the route and find the timespots nearest your stop. Start and end points. Your stop may be between time spots.
3. Read down the column to see what time a bus will depart from a given time spot. Read across a row to see when the bus will reach another time spot. If the time is blank, that trip does not serve that time spot.

Not all stops are shown on this timetable.

Use the timespots on the map and the schedule to estimate the arrival of your bus. For details, call Transit Information or explore our interactive map and trip planning tools at metrotransit.org.
