1. Find the schedule for the day of the week and the direction you plan to travel.
2. Look at the map and find the timepoints nearest your trip start and end points. Your stop will be at the next timepoint.
3. Read down the columns to see what time a bus will depart from a given location. Read across a line to see when the bus will reach another timepoint. If the time is blank, that trip does not serve that timepoint.

Not all stops are shown on this timetable.

Use the timetables on the map and the schedule to determine the arrival of your bus. For details, call Transit Information or explore the interactive map and trip planning tools at metro transit.org.
