

Gateway Corridor

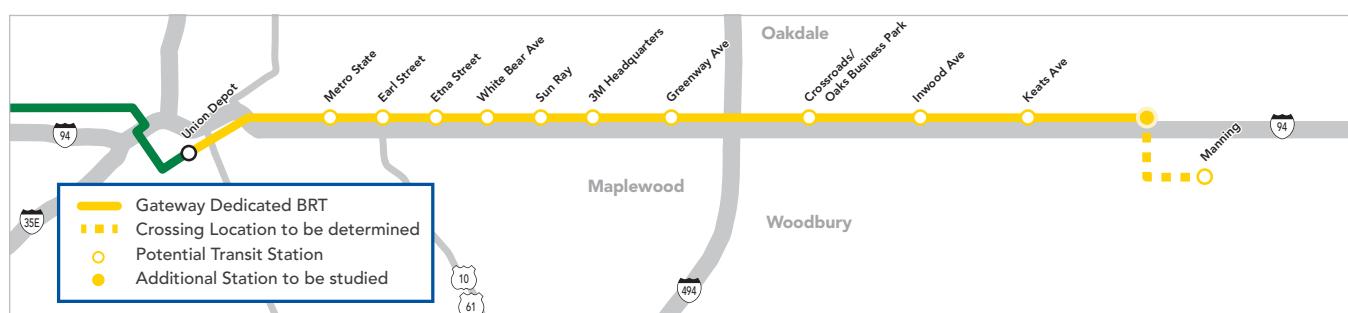

The proposed Gateway Corridor project is an approximately 12-mile dedicated guideway bus rapid transit project that generally runs parallel to Interstate 94, connecting downtown St. Paul with its East Side neighborhoods and the suburbs of Maplewood, Landfall, Oakdale, Lake Elmo and Woodbury. The Gateway Corridor will connect the eastern parts of the Twin Cities metropolitan area to the broader regional transit system through Union Depot multimodal transportation hub in downtown St. Paul.

By the Numbers Gateway

- 12 miles long
- 13 stations proposed
- 64,600 population within 1 mile of the Gateway corridor

Bus Rapid Transit provides smooth boarding similar to LRT.

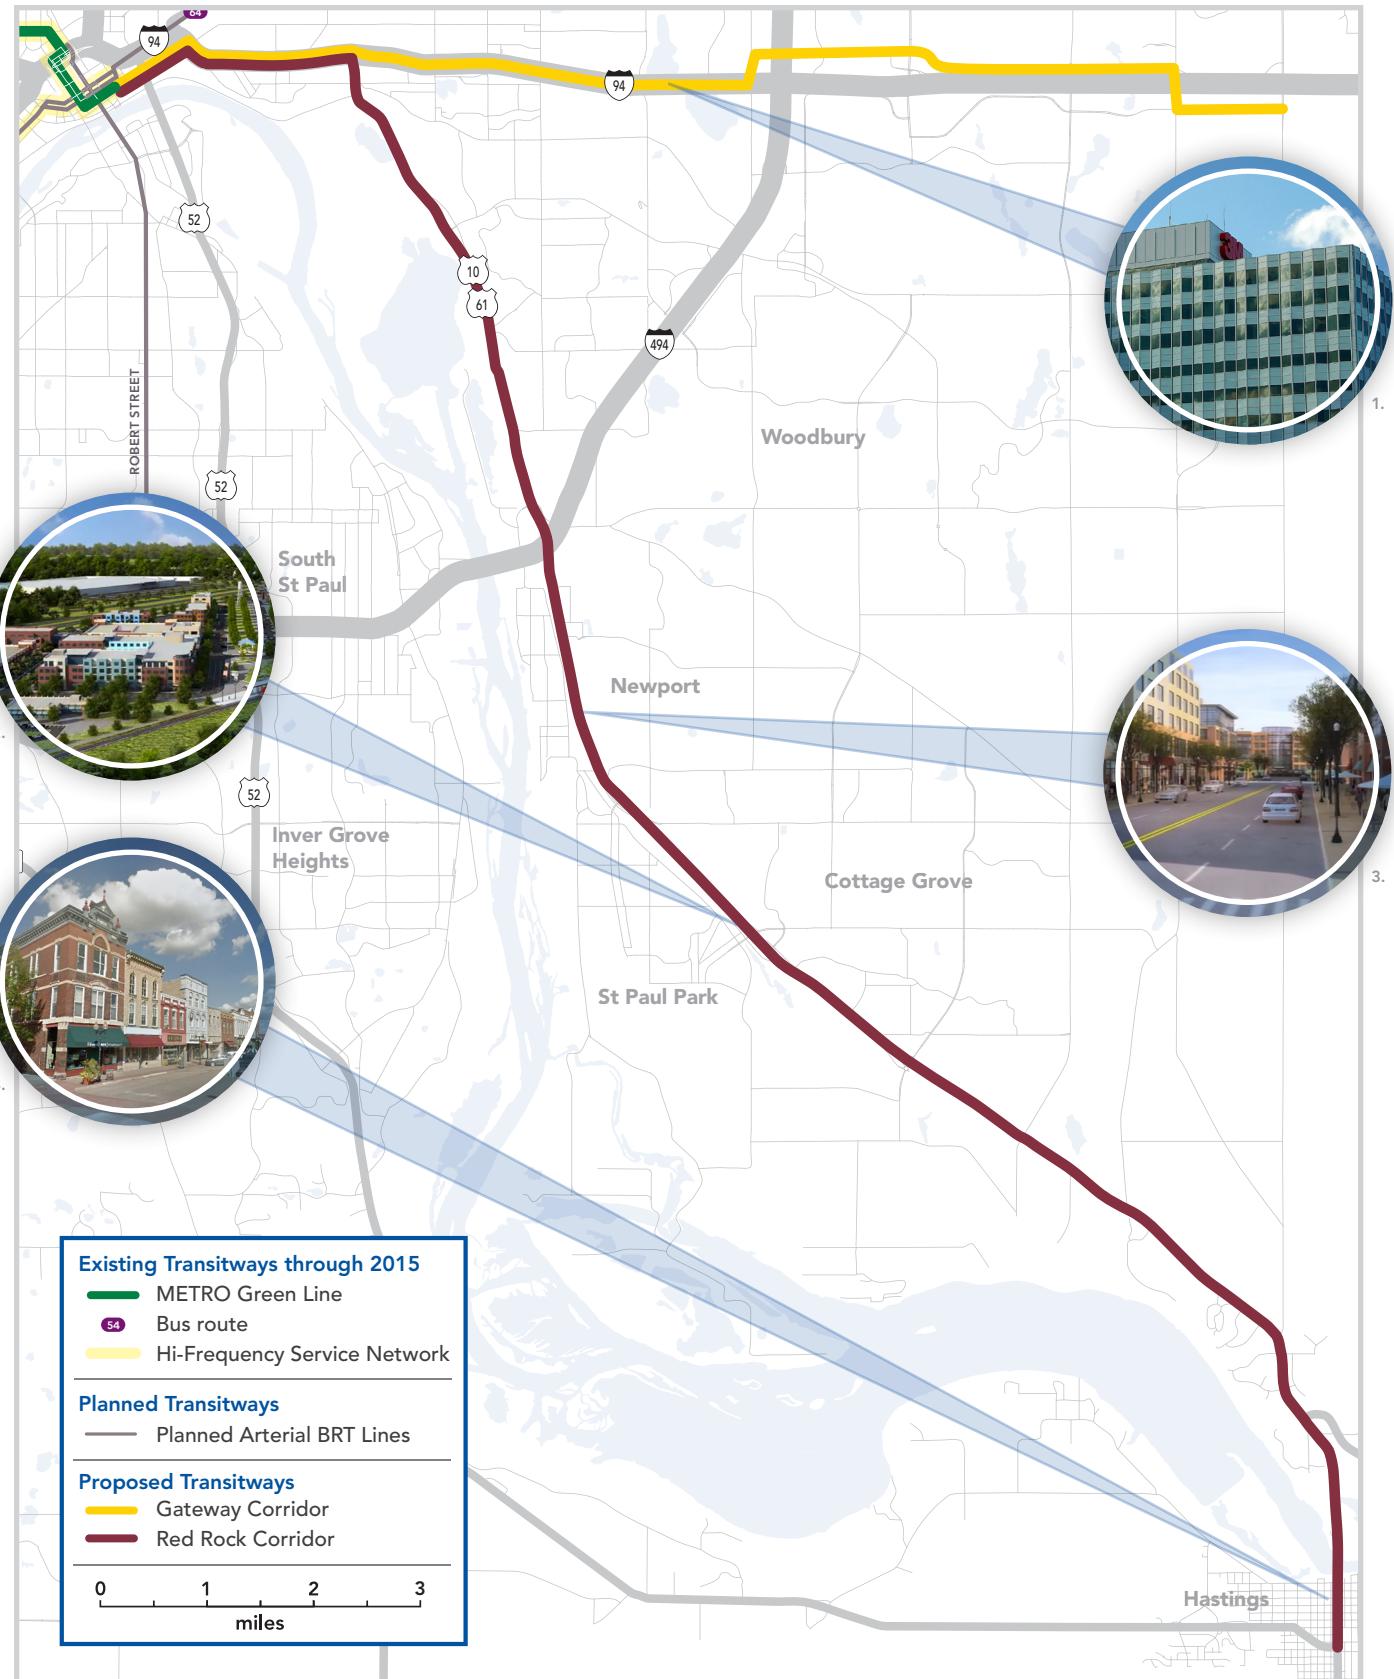

Red Rock Corridor

The Red Rock Corridor is a proposed Bus Rapid Transit (BRT) corridor originating in Hastings traveling through downtown St. Paul and on to downtown Minneapolis. The corridor is roughly parallel to Highway 61 and Interstate 94. The corridor will serve four counties and growing communities.

By the Numbers Red Rock

- 100,000 new residents expected to move into Red Rock communities by 2030
- 30 mile corridor

The Gateway and Red Rock corridors will provide transit access to growing eastern and southeastern cities and relieve increased congestion along critical corridors.
