

Share your feedback on designs and art for Franklin Avenue Station!

If you missed the March 2026 Open House for the Franklin Avenue Station Renovation and would like to review the proposed design and provide feedback about station features and public art, please take the [online survey](#). The survey will be open until Oct. 9. Materials shared at the open house and information about previous phases of community engagement are available on the [project website](#).

About the project

The METRO Blue Line's Franklin Avenue Station, opened in 2004, is undergoing a major renovation to address aging infrastructure, frequent elevator outages, worn components, and community safety concerns.

The Franklin Avenue Station Renovation project aims to modernize the station, enhancing its service to the community through improved accessibility, a better customer experience, reduced maintenance, and increased connectivity. As part of this effort, we are working with the community to ensure the station's design reflects the neighborhood and the people it serves.

Project Timeline

Design began in fall 2025. Construction is scheduled to begin in spring 2027.
